2 PAGE 1 — The Audience

2.1 Who Dayront Reaches

Dayront is a privacy-first media toolkit used by podcasters, video editors, and AI-curious creators to convert, compress, and cut audio and video — entirely in the browser. Files never leave the device. That trust is why our audience returns.

2.1.1 Audience breakdown

Segment	Share	Est. monthly
Podcasters & audio engineers	42%	~42,000
Video editors & motion designers	31%	~31,000
AI / ML early adopters	18%	~18,000
Indie studios & agencies	9%	~9,000
Total monthly visitors	100%	100,000+

2.1.2 Audience quality

- 78% from the US, UK, Canada & Western Europe
- 92% desktop-first professionals
- 3m 42s average time on tool pages
- 68% return visitors month over month

2.2 Why It Works

2.2.1 They're working, not scrolling.

Our users arrive to complete a task — convert a file, cut a clip, compress a podcast. Your ad appears while they're focused, not while they're killing time. That's why engagement runs 4.8× higher than typical display networks.

2.2.2 A clean, brand-safe environment.

No user-generated content, no comment sections, no forums. Every page is owned and editorial. We decline gambling, adult content, and low-quality affiliate offers. Your brand appears only alongside vetted, relevant advertisers.

2.2.3 Trust that transfers.

Files never leave the browser. Our audience trusts us because we don't harvest their data — and that trust extends to the brands we place on the page.
